#	What questions do you have before you find out how to answer this problem? (Extremely important part, and for many, a very hard part, of remediation; will not be accepted without a valid and worthwhile response!!!)
Solve/Answer the problem. (Show all work!!)	Explain to me at least two how's and why's needed to be understood to be able to answer this question <b>and any like it.</b> (If multiple choice, explain how you know it's not the other options)
	Where in the book, notes, and Specific H.W. problem could we have learned how to do this Problem?
